## New York Seething With Prospective Failures--Cortelyou Orders Six Millions Sent There.

# KNICKERBOCKER TRUST IN TROUBLE

## Fail To Have Enough Ready Cash To Pay The Demands Made By Depositors This Morning--May Resume Tomorrow.

[BY ASSOCIATED PRESS.]

New York, Oct. 22.—Excitement, amounting almost to alarm, marked the opening of business today in Wall street.

**Opened Badly.**

The stock market opened demoralized under the heavy selling by the brokers in all the departments of the exchange, and at the same moment a run of considerable proportions was being made on the various offices of the Knickerbocker Trust company.

**Were In Line.**

At the main office on Fifth avenue and 34th street more than 150 persons were in line at 10:30 and there was a short run on the Bronx branch of the Knickerbocker when it opened.

**By Wagon Loads.**

This was promptly stopped by the arrival of two wagons from which were unloaded in view of waiting depositors big bundles of specie and currency.

**Stop Payment.**

The Knickerbocker Trust company stopped paying to the depositors at 12:30, the statement being issued that the company couldn't obtain currency rapidly enough.

The officials state the company may resume payment tomorrow.

**Another Break.**

At 12:35 the stock market was in another violent slump. Union Pacific selling at a loss of 7 1/2, Reading at 7 1/2, St. Paul at 6 1/2 and call money was 50 per cent.

**Stocks Crumble.**

The stocks crumbled away after 2 o'clock, many of the leaders selling at the lowest price of the year. Call money was loaned at 40 to 50 per cent.

**Eight Millions.**

The Knickerbocker company paid its depositors between seven and eight millions in cash before closing.

**One Failure.**

The failure of Mayer & Co., an un-

Important firm, was announced on the exchange this afternoon.

**Had a Rally.**

The stock market had a good rally at the close. The failure of Mayer & Co. being without effect. Call money not alarmed.

Washington, D. C., Oct. 22.—Comptroller of Currency Ridgely in speaking of the financial situation today, said, "My advice from New York this morning are reassuring; the situation there should now improve. The national banks in the country generally are in strong shape and there is not the slightest occasion for any alarm in regard to them."

**Six Millions.**

Washington, D. C., Oct. 22.—It is understood that Seely, Cortelyou has ordered six million dollars distributed among the leading national banks of New York.

**Goes to New York.**

Secretary Cortelyou goes to New York this afternoon to look into financial situation there.

**In Chicago.**

Chicago, Oct. 22.—The officials of the banks of the city are a unit in declaring that never in the history of the city have the financial institutions been on as sound a basis as at present.

**No Effect.**

The dispatches to the Associated Press from leading cities east, west, north and south indicate the flurry in the New York finances has no apparent effect on local institutions.

**Watch New York.**

While bankers, financiers and business men are watching developments in New York closely there is apparently little anxiety felt that local banking interests will be disturbed or affected.

**Nearly Over.**

The opinion is general that the New York situation will soon be settled when the elimination of the speculative interests from the banking field has been accomplished.

# CONSTITUTIONAL CONVENTION OPENS

Woolverine State Will Frame New Document which will Unburden Legislature.

[SPECIAL TO THE GAZETTE.]

Lansing, Mich., Oct. 22.—Ninety-six delegates, chosen at the special election held last month, assembled at the state capitol today for the purpose of framing a new constitution for the state of Michigan. It is impossible to forecast with any degree of certainty just what will be embodied in the new constitution. It is not expected, however, that there will be any radical departures from the present document, which has been in existence for fifty-seven years. It is practically agreed that the legislature should be relieved of a large proportion of local legislation which consumes time and influences the passage of important measures, and the convention will probably agree on a greater measure of home rule for cities and villages. Beyond this, it is expected, there will be little unanimity of action. Efforts to incorporate the principles of direct legislation will be strongly opposed, and any attempts at innovations on the present taxation system will cause strife. It is expected that the convention will remain in session at least 100 days, the legislature having placed the limit at Jan. 31, thus giving about 110 days in which to frame the new constitution.

# EMINENT MEN GATHER IN CHICAGO FOR CONFERENCE

## Richard T. Ely, Of University Of Wisconsin, Among Those Who Will Discuss Trust Problems At Civic Federation Meeting.

[SPECIAL TO THE GAZETTE.]

Chicago, Ill., Oct. 22.—More than five hundred delegates, appointed by the governors of 43 states, all men of earnest thought, devoted to the best interests of their country, met today in convention in the Studobaker Theatre to discuss the problem of trusts and combinations.

The national Civic Federation brought them together to exchange ideas and to recommend informally some solution. It is by far the largest gathering of well-known people ever assembled in the United States for the purpose of discussing trade combinations. In addition to the delegates appointed by the governors the attendance includes representatives of many national organizations, such as the American Federation of Labor, the American Bar Association, the American Bankers' Association, the Farmers' National Congress, the National Grange, the American Society of Equity, the National Cotton Growers' Association and various wholesale trade organizations and the trial centers.

The subjects outlined for discussion during the three days of the conference are as follows:

Governmental power over corporations engaged in interstate commerce; the division of power under the Constitution between the Nation and the States; power concurrent in Nation and state.

How should the corporation be constituted? Should there be National corporations as well as State? The basis of capitalization of corporations; their internal control; provisions looking to the protection of investors and the stockholders, as well as fair dealing with the public; distinction between public service and other corporations.

The just and practicable limits of the restriction and regulation, Federal and State, of combinations in transportation, production, distribution and labor.

"Is the Tariff the Mother of Trusts?" is another subject that will receive much attention, and the discussion, it is expected, will be participated in by many of the best known members of the American Protective Tariff Association and of the American Free Trade League. Another interesting topic on the programme will be presented by J. A. Everitt, the president of the American Society of Equity, a farmers' organization with a membership of more than 2,000,000. In his speech Mr. Everitt will discuss that organization's proposition to control prices of farm products. "The White Paper Trust" and the "Labor Trust" will also be subjects handled by Norman Reddick of the New York State Zeitung.

A full explanation of the administration's attitude on the trust question will be made at the conference. Herbert Knox Smith, commissioner of the bureau of corporations, of the Department of Commerce and Labor, has been selected by President Roosevelt to deliver the speech and he will cover the subject completely, describing the trust legislation now in force, how it has been accomplished and what the administration intends to do. Others who will be heard along the same lines are E. E. Clark of the Interstate Commerce Commission; J. H. Kellogg, special assistant attorney general of the United States in charge of the Government case against the Standard Oil, and Attorney General Hadley of Missouri.

The American Bankers' Association is represented at the conference by a delegation of ten members, among them being ex-Comptroller of the Currency Charles G. Dawes of Chicago and William Woodward of New York. The American Bar Association has sent a delegation headed by John G. Milbourne of New York and Moorfield Storey of Boston.

Still others of prominence whose names appear on the programme are Senator-elect Joseph E. Johnston of Alabama, Gustav C. Pabst of Wisconsin, Bartlett Tripp of South Dakota, Archbishop Ireland of St. Paul, Dr. Albert Shaw, editor of the Review of Reviews, Richard Watson Gilder and Nathan Straus of New York, President Nicholas Murray Butler of Columbia University, Seth Low, ex-mayor of New York, Congressman Richmond Pearson Hobson of Alabama, President Carroll D. Wright of Clark College, President Harry Pratt Judson of the University of Chicago, August Belmont and Cornelius N. Bliss of New York, Melville E. Ingalls of Cincinnati, Theodore W. Noyes of Washington, D. C., Senator W. Murray Crane, Massachusetts, and Richard T. Ely of the University of Wisconsin.

## Was Asleep At Side Of Track--Northwestern Brakeman Cut To Pieces At Calcedonia, Ill., This Morning.

[SPECIAL TO THE GAZETTE.]

Beloit, Wis., Oct. 22.—Lying at the side of the North-Western railway tracks south of this city a stranger was found in a mangled condition last night about 9 o'clock. He was brought to this city and placed in the local hospital, where he died at three o'clock this morning.

The man was evidently asleep by lying near the tracks when a train struck him. Part of his face was torn off and his body was badly mangled. He was carried about 20 feet by the train.

He was well dressed and appeared to be about 30 years of age. On his person was found a letter addressed to Humphrey H. Pitkin, Racine, Wis., written by C. S. Pitkin of Memphis, Tenn. It is presumed that the unfortunate victim was Humphrey H. Pitkin.

A telegram has been sent to C. S. Pitkin at Memphis, notifying him of the man's death.

Joseph Lauer, a brakeman on the North-Western road, was badly injured at Calcedonia, Ill., this morning while switching and was brought here to the local hospital, where he now lies between life and death. His injuries were the cutting off of the right foot, the cutting off of the left leg at the knee, a fracture in the right arm, a dislocation in the right shoulder, and several bad cuts on the head.

He was in the act of stepping from the top of one car to another when the train broke in two at this point, letting him down to the ground between the cars.

His home is in Daraboo and his relatives have been notified.

City Council Will Ask State Rate Commission to Regulate Rates of Gas Company.

[SPECIAL TO THE GAZETTE.]

Manitowoc, Wis., Oct. 22.—Application to the State Rate Commission for regulation of charges and service of the Manitowoc Gas Light Co. is probable by the city council which received a resolution providing this at the meeting last night. The resolution is prompted by a circular issued by the Gas company offering \$50,000 bonds on the market. The circular declares that the company is clearing something like \$20,000 a year and so-called, who have agitated the water works question to death and failed in a fight on the Electric Light Co., have now opened their batteries on the Gas company.

# FARMERS LOSE STOCK AND GRAIN BY THEFT

## Nightly Raids by Thieves Relieve Farmers Near Appleton of Livestock.

[SPECIAL TO THE GAZETTE.]

Appleton, Wis., Oct. 22.—Seven head of cattle, 520 chickens, forty bushels of grain and corn constitute a portion of the plunder of looters that have operated in Outagamie county during the last few days. The latest victim of the nocturnal marauders is Harry Leppa, who last night lost five heifers and 250 chickens; his brother, Joseph Leppa, a few days ago lost more than a hundred chickens and a calf, and Albert Spencer last Friday night suffered the loss of forty bushels of corn. Several other farmers in the vicinity of Greenville have been robbed and the aggregate value of the goods stolen is not less than \$500. There is every indication that a band of robbers is at work in Outagamie county and the farmers today determined to organize a vigilance committee and make an effort to run down the thieves.

## ABD-EL-AZIZ IS BEATEN BY RIVAL

FORCES OF SULTAN OF THE  
SOUTH WIN DECIDED VICTORY.

### BIG HELP TO HIS CAUSE

Commander of Northern Sultan's Field  
Forces Is Captured—French  
Will Punish Moors for  
Ambush.

Tangier, Oct. 22.—The first conflict between the forces of the rival sultans, Abd-El-Aziz and Mulai Hafid, took place October 17 between Blawita and Mequinez, according to reliable reports received here from Mazagan, with the result that a detachment of troops fighting with Mulai Hafid, the sultan of the south, and consisting of eight regiments under Mulai Rachid, and known as the first division, defeated the forces of Abd-El-Aziz, the sultan of the north and captured Chahita Bagdani, the commander-in-chief of all Abd-El-Aziz's forces in the field, who had with him eight pieces of modern field artillery.

The favorable effect of this victory to the cause of Mulai Hafid is incalculable.

Seizes Many Cartridges.  
During the night of October 17 some of Mulai Hafid's men made a third raid on the custom house at Mazagan and seized 100,000 cartridges, and on the following night they made a fourth raid on the same place and captured 200,000 more cartridges.

The first division of the imperial troops, consisting of 800 men, destined for Mogador, arrived at Tangier Monday. Communication with Mogador is interrupted.

The officials at Mazagan have received information to the effect that Mulai Hafid started on October 19 for Chahita, the district between Tangier, Rabat and Fez. Hafid has issued a notice to the effect that he guarantees the protection of all the foreigners at Morocco City. Hafid is showing a strong hand in controlling certain Moorish sects which are demanding the proclamation of a holy war, to which he is unalterably opposed.

Rahoul May Torture MacLean.  
Some of Rahoul's followers have deserted him and come to Tangier. The native report of the occurrence gives as a reason for the desertions that Rahoul, in retaliation for the French interference in the steps taken to secure the release of Capt. Sir Harry MacLean, intends to "kill MacLean by inches."

The ambushing of a French reconnoitering party while proceeding from Casablanca in the direction of Taddert, resulting in the killing of Capt. Jandey and a private of the Chasseurs d'Afrique and the wounding of six men, will, it is said, result in the resumption of hostilities on the part of the French troops commanded by Gen. Drude.

The importance of the disturbance in the southern part of the empire is proved by the departure from here of the French squadron. The warships are running south under full steam. They were mobilized by means of the wireless telegraph.

Former Pastor Accused of Forgery.  
Joliet, Ill., Oct. 22.—Benjamin F. Graft, formerly pastor of the Ridge-wood Baptist church, in Joliet, was placed on trial Monday in the Will county circuit court under an indictment charging forgery in connection with insurance papers issued by Graft as agent for an insurance society after he was deposed from the ministry.

RUSSIA SETS WALLING FREE.  
Capt. English's Efforts Also Liberate Miss Rose Strunsky.

St. Petersburg, Oct. 22.—William English Walling, the Chicagoan who was arrested here Sunday with Anna Strunsky Walling, his wife, and Miss Rose Strunsky, her sister, because of association with the Finnish progress-ive party, were released late Monday.

English, set in motion the machinery of the American embassy by telegraphing Mr. Schuyler at St. Petersburg to use his offices for the release of the prisoners. Capt. English is an uncle of Mr. Walling. He at once, on hearing of the arrest of the Americans, telegraphed Secretary Root, President Roosevelt, Gov. Hanly of Indiana, Vice President Fairbanks, Senators Beveridge and Hemenway and others to use their good offices to secure the release of the prisoners.

## AID GIVEN TO WEAK BANKS

NEW YORK CLEARING HOUSE  
GIVES PROMPT ASSISTANCE.

Debit Balances Are Large—Stock  
Market Becomes Buoyant as  
Tension Is Relieved.

New York, Oct. 22.—The recent tension of the banking community was considerably relieved Monday and the day passed with no adverse developments of a serious character, but with much that was reassuring. At the same time there was evidence that some of the banks most affected by recent events were still in need of assistance, but the promptness with which the clearing house accorded it did much to allay further alarm.

The general improvement was reflected in the buoyancy of the stock market and the steady advance in prices from previous low levels. On the other hand, the conservative element deferred an optimistic view until the relief given by the clearing house shall have continued for several days and permanently reestablished the stability of some of the weaker institutions, notably the Mercantile National bank and the New Amsterdam National bank.

The clearing house was called upon to meet debit balances of the Mercantile and the New Amsterdam banks to the extent of upwards of \$2,000,000, of which the Mercantile owed about \$1,900,000 and the New Amsterdam \$200,000. The debit balance of the National Bank of North America amounted to \$850,000.

At a meeting late Monday of the directors of the Consolidated National bank, William C. Allison was elected president in place of Orlando P. Thomas, resigned.

One development which did not tend to ease the prevailing conditions was the application for a receiver for the firm of Otto Heinze & Co., the brokers who were suspended from the New York stock exchange last week after a disagreement between that firm and Gross & Kleber company over the acceptance of a block of stock of the United Copper company.

Late Monday night the National Bank of Commerce gave notice to the clearing house association that after Tuesday it would no longer clear for the Knickerbocker Trust company. There was a conference of the directors of the Knickerbocker company at an uptown hotel at which officials of other prominent trust companies were present, as was J. Pierpont Morgan. A director of the Knickerbocker at the close of the meeting stated that the trust companies of New York had agreed to stand by the Knickerbocker and were ready to extend aid to the

amount of \$10,000,000 if aid was required.

G. Louis Boissvain, a director of the Knickerbocker company, at a late hour gave out the following statement:

"For reasons satisfactory to Mr. Barney, and with which the Knickerbocker Trust company is in no way identified, Mr. Barney, consulting the best interests of the company and of himself as a stockholder, has resigned as president. A. Foster Higgins has been unanimously elected as president of the company. Following the practice of other trust companies, the Knickerbocker Trust company will begin this day banking arrangements to clear over its counters."

## FREIGHT STEAMER ON ROCKS.

Queen Cristina Is Wrecked on the  
California Coast.

Crescent City, Cal., Oct. 22.—The British freight steamer Queen Cristina struck on north seal rock, four miles northwest of this place, at 1:30 a. m. Monday. Sixteen members of the crew reached here in boats at 10:15 in the morning and 15 others remained on board. There are four hatches of water around the steamer. When the crew left the vessel her pumps were still going, and her bulkhead was holding. The steamer will prove a total loss.

## PRESS COMMENT.

Still, Burton Has a Chance.

Pond du Lac Bulletin: "The management of the opera house at Cleveland may have the 'Man of the Hour' from appearing there, feeling that it will be the means of re-electing Tom Johnson mayor, but they may rest assured that the 'Man of the Hour,' after the votes are counted will be Mayor Tom Johnson. The people have fair play, and will recognize the reason the company was barred from appearing in the city at this time.

Comment Is Also Indelicate.

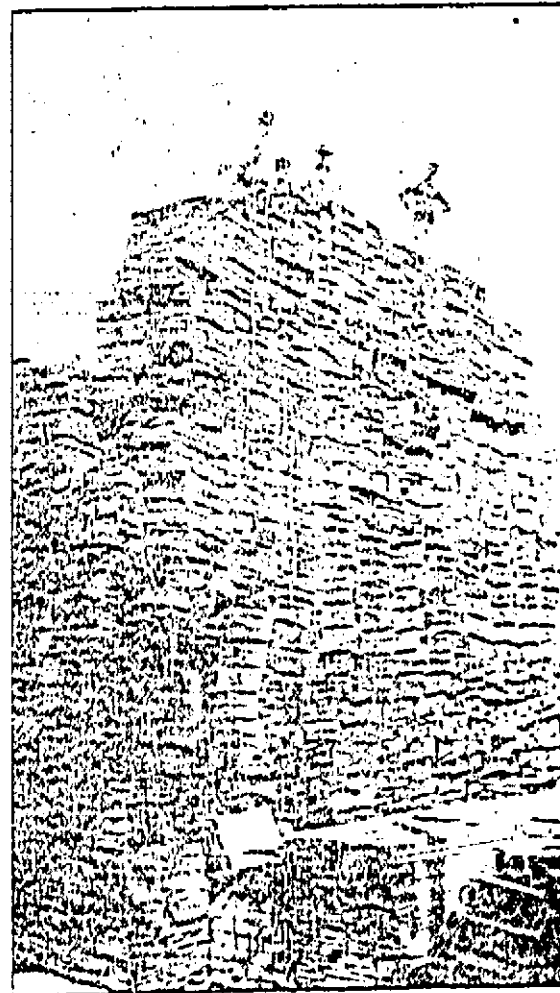

Madison Journal: "Theodore Kronsage of Milwaukee has stirred up the good people of that city by declaring that he would not dare to send a daughter of his to a Milwaukee boarding house. We do not know enough of the situation to pass upon the merits of Mr. Kronsage's implied charge, but we would modestly suggest that for a bridegroom of three weeks Mr. Kronsage is exhibiting undue reticence to say indelicate solicitude about the selection of domestics for his daughters.

Fourteen-Footers Will Help Some.

Evening Wisconsin: "The idea of asking the government for an appropriation to make Rock river a navigable stream is probably one of the results of the waterway enthusiasm which is blind enough to overlook the midst in a proposition to connect the 20-foot lake channels with a 14-foot river channel that is an extreme engineering impossibility. Perhaps the Rock river people have a notion that they can share with Chicago in oriental trade over a roundabout canal, river, gulf and ocean route—all with craft limited to fourteen feet draft.

For Ladies, Misses and Children

Wednesday, Oct. 23 and Thursday, Oct. 24

On these two days we shall have with us the representative of the largest cloak manufacturer in the West—THE BEIFELD COMPANY—a firm noted throughout the country for the style and excellent workmanship of their garments. Biefeld writes us that their agent will bring with him more than four hundred exclusive styles in Coats, depicting the very newest Paris modes modified to meet the tastes of American women. These, together with our own immense line—more than four times greater than ever before—we will have to show you a great collection of exclusive models ready for you to slip on and determine which best becomes your particular style.

It will be the most comprehensive showing of fine tailored coats ever brought to Janesville

### COATS FOR LADIES, MISSES AND CHILDREN

### 50 LATE STYLE LADIES' TAILORED SUITS

in the tight-fitting and prince-chap effects. The tailoring is of the highest type and the materials possess up-to-dateness, beauty and serviceability. Exceptional values at \$20.00 to \$25.00.

In offering the ladies of Janesville and vicinity this great line of Cloaks and Suits our idea is to show them a much larger line of exclusive and fine garments than they could see in any other way. Selling many of these garments as we do, without the carrying risk, we can afford to sell them on a very close margin. You will save on every garment you may buy during this sale.

You are cordially invited to attend this great sale. You will be welcome whether you wish to purchase or not.

We have organized in our Cloak and Suit room a special department for alterations, under the competent management of Miss Gibbons and Mrs. Grace Catlin. The ability and skill of these well known tailoresses assures perfection of fit and finish to every garment that leaves our store.

PROFIT AND LOSS SHARING

A manufacturing company in

Heldreth, Conn., conducting its business on a profit-sharing plan, has used a unique form of contract for six years.

The significant features of their profit-sharing contract are as follows:

(1.) Employer and employee agree to share both profits and losses.

(2.) Net gain or loss is ascertained by deducting from the gross result of the inventory on the first of February all expenses for the year previous of every kind, including depreciation of buildings, tools, machinery, and had debts. In the case of gain, the capital invested, as shown by the inventory, shall first draw a per cent interest, "or, in case there is less than that amount, shall draw what there is, in liquidation of its claim"; the balance, then remaining, to be divided between the company and the individual employee in the proportion which the capital invested bears to his total wages for the year.

(3.) For each current year, one-tenth of the wages of every employee who is a party to the contract, is withheld each week. In case there is not a net loss on the entire business of the year, this reserved money, together with any accrued profit, as figured above, is paid to the employee, on or before March first, of each succeeding year.

(4.) In case of a net loss on the business of the entire year, without figuring any dividend as above provided for capital, this loss is divided between the company and the employee in the same method as that prescribed for the dividing profit; but in no case does the employee become responsible for losses greater than the amount reserved from his wages.

(5.) Other employees may become parties to this contract, upon the invitation of the company. Any employee may withdraw from the contract at any time, and from the firm's employ, but the company then holds the right to retain the 10 per cent reserve till the end of the current year. In case it is so held, its owner shares in the company's profit or losses.

(6.) The firm may discharge any of its employees, but in that case he shall have the option of withdrawing his full reserve, or of leaving it till the end of the year, to share in profit and losses.

(7.) It is agreed by the company that none of its employees who signs this contract shall be temporarily relieved from work so long as the company has any work of the kind he is accustomed to do; but if there is a shortage of work in the hands of the company it shall reduce the hours of work, and so divide the work among its employees. If at any time an employee becomes sick or incapacitated to perform his duties, and has a certificate of a reputable physician that he is so incapacitated, he may draw on his reserve wages at a rate not greater than six dollars a week, without affecting his interests in the profits at the end of the year. If any employee is injured by any accident while in the employ of the company, the company, at its own expense, provides him with a competent physician or surgeon, upon application stating that such services are needed.

Such is the contract. In practice, it does not apply to the whole labor force. The company did not think the proposition would appeal to their unskilled laborers, comprising about two-thirds of the number in their employ. As regards the skilled laborers, it has

been the company's practice not to invite further signatures to the contract at any time when three-fourths of their skilled laborers are already working under it; for the amount of business on hand is subject to some fluctuations, and the firm do not wish to enter into this relation with a larger number of employees than they can reasonably sure of providing with steady employment. This limitation, however, does not apply to the office force. The result is that, out of a labor force of about 250, there are eighty who are eligible to admittance to the contract, and sixty are actually so enrolled. No man is ever urged to become a party to it, but there is always a long waiting list.

This is the sort of profit and loss sharing which is just and equitable. A division of profits is always gratifying to employees, but a division of losses is a different proposition. It is difficult to realize that a large volume of business does not always mean a balance on the right side of the ledger, but it frequently happens that the well paid employee is better off than the man who furnishes the capital and takes all the chances.

OPTIMISM

"The age is peculiarly liable to exaggerated notions of the wrongs, the tyranny, and the corruption of men," says Chancellor Day in Appleton's Magazine. "We take a paper at breakfast and focus the world's iniquity into one house at one hour as into a camera obscura. We scrape it all off the pages of one little paper into our plate and look at it and say: 'How long, O Lord, how long?' 'The world has gone over to the devil body.' But you scatter it all back whence it all came over the wires and there isn't enough of it to refract one ray of the sun of our glorious civilization."

"The remedy 'Talk of nothing for a year but the great and glorious things of America. Talk of the thousand varieties of handy and cheap forms into which meats and fruits and vegetables, all edible, are being put for men in all places and pursuits, from the day laborer to the North Pole explorer. Talk of the difference between kerosene at fifteen or twenty cents a gallon and kerosene at one dollar a gallon and every gallon at that time might blow you into kingdom come. Talk of the by-products once in the dump heaps that are adding hundreds of millions annually to our country's wealth and the comforts of the rich to the homes of the poor. Talk of unnumbered forms of manufacture, those most active agents of civilization, which must be credited up to our great land. Talk of the railways, which form opposition in their inception to perspiration throughout their history, have pushed on, opening up states, filling the nation with teeming millions, transporting us for a fraction of the cost of conveying ourselves in all directions, hurrying our papers and letters off at every roadside village at a mile a minute, and taking to the winds for the markets of the world the products of our fields and the work of our shops and factories. Talk about these great things a year and see how few things there will be to complain about."

This is the kind of optimism for which the nation is suffering. The gloomy side of life is never attractive, and people who live in the shadows are always abnormal.

Wall street has had occasion to blue most of the time for the past year, and railway corporations are not in a happy frame of mind, but the great rank and file of American citizens is better off today than at any time in the history of the country.

The nation is prosperous beyond compare. Employment waits for every man who is willing to work and the luxuries of life are considered necessities in many homes which never enjoyed them before.

The muckraker has accomplished his mission and retired on his laurels and still prosperity continues.

The suffering of today is caused by the disease of unrest and is more imaginary than real. The canker worm of envy has destroyed the peace of many minds, and the seeds of socialism have taken root in a soil not congenial to its growth and development.

Chancellor Day's article on prosperity is a forceful reminder of many things for which the people should be thankful and is well worth reading.

The manufacturers of Kenosha have organized in the interests of the open shop, and when present contracts expire they propose to employ men whose first allegiance is not to the union. Fifty thousand men are affected and strikes are likely to develop. The manufacturers are preparing for this class of disturbance, and will attempt to run their own business without dictation.

The Wallings have been released from the Russian prison and will leave the country for the country's good. America will doubtless continue to harbor them, for this is the only free land, where socialism and anarchy may be discussed with impunity.

The man who sulk away in a balloon, not knowing where or how he will land, takes no more chances than the man who trusts his life to a rock-throwing chauffeur, who drives a road engine over the country at fifty miles an hour. A balloon never sinks in going around a corner, and there are no telegraph pole collisions.

Public sympathy has been with Mr. Fish, as he enjoys the credit of having made the "Contract" one of the great railway systems of the country.

The Harriman-Fish contest for the control of the Illinois Central railroad has resulted in a temporary victory for Fish, and the chances are that he may again gain control.

## PRESS COMMENT.

Fatal Nineteenth at the Links  
Rockford Register-Gazette: A Chicago man shot himself on the golf links. That's making the fact hole in an unpleasant way.

Killing as an Economist  
Chicago Inter Ocean: When Rudyard Kipling goes into economics we hear some things that remind us of Mark Twain when he goes into politics.

Meant Its People Undoubtedly  
Racine Journal: Now Milwaukee will go off the handle in being called the Berlin of America by Burton Holmes, the great traveler and lecturer.

Not the Seven Varieties Chap  
Toledo Blade: The Helms who has got himself into a financial pickle isn't the Helms whose name often appears on the placards on the street cars.

Will Scarcely Make a Start  
Chicago Record-Herald: Arnold Daly has opened a theatre in New York for the production of plays which do not need to be advertised. We predict that Mr. Daly will soon run out of material.

Why Drag Us In, Mr. Barnes?  
Rockford Register-Gazette: If a weather eye is kept out for the Beloit and Janesville autosists who love to burn up Rockford's fine streets it will be easy to get Willie's money back, but not back to Willie.

The Post's Trying to Prima It  
Chicago Tribune: Rudyard Kipling insists on pumping more white immigration into British Columbia. Perhaps the pumping facilities of British Columbia are deficient in the matter of suction.

One of the Professors, of Course  
Chicago Examiner: The crash in Helms's interests is said to have been caused by a young woman who bubbled secrets. We suppose the press agents will soon give out the name of the actress.

Timely Suggestion to Growers  
Shawano Journal: Those farmers who are trying to boost prices by controlling the tobacco crop will not succeed unless they can control also the cabbage product and the output of the brown paper mills.

Still No One Bets on Citicoms  
Oshkosh Northwestern: Some of the more ardent La Follette men are trying to argue that La Follette really stands a chance to be president. They are not looking for chances, however, to back their opinions with wagers.

But That's Only One Item.

Chicago News: So many girl hat trimmers are getting married that the hat trimmers' union is hastening to train more members to keep up with the work. A girl who can trim her own hats looks like a prize to the ordinary marrying man.

Bound to Have Its Jibe.

Providence Journal: Possibly Secretary Taft's decision that no honors shall be served at functions in his honor at Manila is the result of a certain famous episode at Indianapolis.

Those Who Agree With Andrews.  
Chicago Record-Herald: When J. Benjamin Andrews expressed the opinion that all Helms ought to be hanged he probably won the approval of ex-Governor Pennypacker of Pennsylvania, but he could have made the

ex-governor even happier by including cartoonists.

Posts Its Bet on Helms.  
Oshkosh Northwestern: It is now denied that P. Augustus Helms, has "gone broke" in the slump of the copper market. And even if he did go broke it is a safe bet he would manage to land on his feet, somehow, and in a few short years would again bob

up to take it out of the hands of the other fellows who have been after his scalp for so long.

Nothing Mysterious About Him: Joe Kuntz, owner of the champion fighting bull-terrier, to which allusion was made in Monday's issue, takes exception to the suggestion, "Mysterious Joe." Likewise the invitation to the Lino City society to take notice that a fight within local precincts was reported to be under way. He says that he is not mysterious and that he has no intention of matching the dog with the products of Rock county.

Round-up by Police: A gang of laborers at the South Janesville yards, mostly foreigners, who quit yesterday after receiving their pay and came to town to hold a big booze-fest, were rounded up at the corner of Marion and West Milwaukee Sts. by City Marshal Appleby and his assistants, hustled into the patrol wagon, and bundled off to the lock-up. All were released without being taken to court, this morning.

Automobile Party: Mrs. J. B. Earl, Miss Edna Earl, and Orrin K. Earl of Chicago, and Frank Stratton of DeKalb, South Dakota, arrived here from Holman lake in a touring car this noon and were registered at the Hotel Myers.

Roller Men Locked In: Seemingly a possible deal with the city, road roller men came flocking in from several quarters yesterday. Besides Mr. Sprackling, representing the J. I. Case Co., whose machine is being used here at a rental of \$5 a day, there was a man from the Kelly Springfield Road Roller Co. of Springfield, Ohio, one from the Monarch Co. and one from the Smith & Western Co. of Chicago, which makes a motor roller operated by gasoline.

## AGED RESIDENT DIES AT APPLETON THIS MORNING

[SPECIAL TO THE GAZETTE.]

Appleton, Wis., Oct. 22.—Edwin Nye, aged 73 years, one of the earliest settlers in Milwaukee and Racine counties and one of the pioneers of Freedom, died at his home in Freedom Sunday afternoon, after an illness that first made its appearance on Friday afternoon.

Two of a Kind

"It takes an artist to appreciate an artist," remarked Gus Rogers, of that famous team, "Rogers Brothers in Panama." "Which reminds me of the soldier who applied for leave of absence with a heart-rending tale of a sick wife crying for him. The officer, familiar with the soldier's way, replied:

"I am afraid you are not telling the truth. I have just received a letter from your wife urging me not to let you come home because you get drunk, break up the furniture, and mistreat her shamefully."

"The private saluted and started to leave the room. He paused at the door, asking, 'Sir, may I speak to you, not as an officer, but as a man to man?'"

"Yes, what is it?"

"Well, sir, what I am after saying is this—approaching the captain and lowering his voice: 'You and I are two of the most likable fellows the Lord ever made. I'm not married at all.'—November Young's Magazine.

A Traitor in the Camp

La Crosse Chronicle: In its issue for Thursday last the New York Sun published on its first page, headed by the largest headline which we have seen in that newspaper for a long time, the following dispatch:

"Washington, Oct. 22.—A dispatch from London, which was elaborated by a mass of detail relating to the activities of the war and navy departments in that connection. No other newspaper published in New York was able to discover at Washington or elsewhere a basis for the publication of a similar story and the Sun alone conveyed to the New York public the startling information contained in its Washington dispatch.

The reason for this condition of things, of course, is plain. There is not a word of truth in the Sun's story and its publication is an act of treachery for which the condemnation cannot be too severe. The explanation of the Sun's astonishing action is to involve the country in war is not further to seek than the evidence of its mendacity. The Sun proposes, if made and misrepresentation, to accomplish it, to wreck the Roosevelt administration and to overthrow the Roosevelt policies. It is serving with all of the power at its command the privileged interests which the president has angered by the destruction of their opportunities for extortion, and the war story is an incident in this disgraceful and dishonest campaign.

The thing is one of the most amazing prostitutions of the proper functions of journalism in the country's history.

## Women and the Theater.

The first aim of the modern playwright is to please the women in the audience. The second thought is for the female characters in the play. It is a play finds favor with the women. It is bound to be a success. The men will go to it only because she is there or to act as her escort.—Theater Magazine.

Gifted with a sweet soprano voice, excellent enunciation, and a charming personality, Mrs. Carson was heard to the advantage in Molt's "Hilfing Trill," "When Celia Sings," the Colorado-Taylor lullaby and other favorite ballads. The trio sang with the best of the Apollo Club.

## Stove Buyers Find They Can Save Money Here

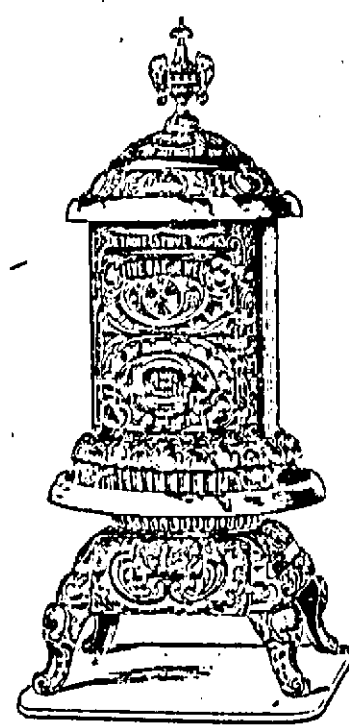

Stove buyers have found that we can sell them Stoves of every description at prices which give them the greatest values obtainable.

This is evidenced by the great number of stove sales we have made this season, and the great interest manifested in the biggest stove department in southern Wisconsin. Many who had expected to buy from mail order houses, have carefully examined our Stoves, learned our prices and discovered that there is only a slight difference in price between the cheaper and the best grade of Stoves, and the old adage, "Good Goods are Always the Cheapest," was never more fully demonstrated than in the line of Garland, Jewel, Radiant Home and Quick Meal Stoves which we sell.

You will agree with us that you cannot afford to buy a cheap stove when you consider that they do not last, are continually needing repairs, and require far more fuel in operation. We would like to show you the difference between a full weight, carefully mounted Stove and the one made to sell cheaply, out of poor material, carelessly mounted with Stove putted joints.

If you will call and see our line, we will demonstrate these points and leave it to your own judgment.

## MAN TORTURED FOR 33 YEARS.

Suffered from Disease of the Skin, But  
Found a Cure at Last.

A story written in the own words of  
the sufferer has just come from Covington,  
O., which has caused a big stir among  
skin specialists and among  
those suffering from Eczema and other  
forms of skin diseases. George  
Plummer, of that city, an old and  
honored resident, suffered from Eczema  
for 33 years before he was able to  
find a cure and was then saved from  
further suffering by D. D. D. Prescription.  
There is what he says about it:  
"I had Eczema for 33 years and two  
bottles of D. D. D. Prescription completely  
cured me. I know that this  
sounds strange. I can hardly believe  
it myself, but it is the gospel truth.  
As soon as I found out what D. D. D.  
would do I hunted up two of my best  
friends, Mr. Shuman and Mr. Rank,  
both of whom had Eczema. Both of  
them are now cured, and Mr. Rank  
has used only seven bottles. It is a  
wonderful remedy."

D. D. D. Prescription is a fluid  
remedy which gets right at the roots  
of such diseases as eczema, psoriasis,  
salt rheum, barber's itch, etc. It does  
not scratch the skin where the skin needs  
to be treated. It kills the germs and  
the itching scales fall off, leaving the  
skin fine and white.  
We know that this remedy is abso-  
lutely reliable and that it has cured  
eczema and the patients appear to be  
cured forever. Come in and let us  
give you a booklet on skin diseases,  
bathing and other necessary things if you  
are a sufferer from skin disease.

## BALLOONS ARE OFF FOR GREAT RACE

NINE MONSTER AIRSHIPS GO UP FROM ST. LOUIS.

START MOST AUSPICIOUS

Aeronauts May Come Down in Minnesota or One of the Dakotas, or East of Lake Michigan.

St. Louis, Oct. 22.—Drifting along in a direction just west of north when lost to view in the haze of falling night, and with a freshening southeast breeze behind them, nine big balloons are competing for the honors attached to the winning of the second International aeronautic cup race. A brilliant moon was shining throughout the middle west and conditions seemed ideal for a record-breaking flight.

A stiff wind would have been more welcome to the occupants of the Wicker cars, which hung like tiny specks beneath the great globular gas-filled bags, but the five-mile breeze of the lower air strata gave promise of splendid racing currents in the higher altitudes. The Germans, acting on this theory, reached for their courses right from the start. The French and English aeronauts were more conservative and selected a middle depth, while the Americans raced away at an altitude which seemed to take them just clear of trees and house tops.

Nearly Strike Grandstand. So low, in fact, did two of the American teams balance their cars that there was grave danger of the baskets raking a crowded grandstand, and intense excitement prevailed. The St. Louis, one of the largest balloons in the race, came so close to the stand that it was seized by a squad of soldiers, swept back to a safer starting point, and sent away two minutes after the official word to go was given.

In the big race there are three balloons representing America, three representing Germany, two for France and one for England. The basket of each balloon contains two occupants, the pilot and his aid.

With a prospect of the breeze holding to the southeast and south, many predictions were made Monday night that the final landing place of the winning balloon would be in Minnesota or one of the Dakotas. Others held the opinion that the upper currents would send the air craft further to the east, to find a place of descent east of Lake Michigan. The record of the race, established last year by Lieut. Lahm, of the United States, in a flight from Paris to Fyling Dales in the north of England, is 402 miles, but each aeronaut in the present contest confidently expected to exceed that distance.

The start of the race was spectacular in the extreme and was witnessed by a throng gathered in Forest park variously estimated at from 60,000 to 150,000 persons.

The first report of the balloons from other points came from Donna Terra, Mo., 60 miles due south of St. Louis. It was to the effect that a balloon had been seen over that place at 7:30 o'clock. The report was believed to refer to some vagrant or test balloon rather than one of the cup contestants.

## Reports of Their Progress.

Another report came in a dispatch from Ellingham, Ill., 30 miles due east of St. Louis. A balloon passed that place at 7:30. It was high in the air, and traveling fast in an easterly direction. This same balloon, or one of the other contestants, was seen from Mason, Ill., 12 miles below Ellingham. Another report came from Taylorville, Ill., near Ellingham, to the effect that two balloons passed over that place. Panna, Ill., reported three balloons there at eight o'clock.

Alton Sees the Pommern. Alton, Ill., Oct. 22.—The first balloon (Pommern No. 1, German) passed over Alton at six p. m., traveling north about ten miles an hour.

## Charleston Sights One.

Charleston, Ill., Oct. 22.—One of the balloons which left St. Louis Monday passed Charleston Monday evening at 6:50 o'clock. Its course was northwesterly and it passed about eight miles north of the city.

## Going East Over Paris, Ill.

Paris, Ill., Oct. 22.—A balloon passed here at 9:30 o'clock Monday night. The course was almost due east. The outline of the balloon could be seen in the moonlight.

## Two Pass Mount Vernon, Ind.

Mount Vernon, Ind., Oct. 22.—Two balloons passed here late Monday night. The following message was dropped by one of them:

"We passed Mount Vernon, Ind., about 11:40 p. m. Please notify C. J. Gidden, of St. Louis, official starter No. 10 balloon, C. DeForest Chandler."

The second balloon passed one mile north of here at 12:07 a. m. going in an easterly direction.

(Mount Vernon is 50 miles south of St. Louis and 150 miles east.)

## FILIPINOS HONOR MR. TAFT

BANQUET AND LOVING CUP FOR THE SECRETARY OF WAR.

Guest is Cheered for Five Minutes—Gives Islanders Advice and Encouragement.

Manila, Oct. 22.—There was a great demonstration here Monday night in honor of Secretary Taft, the occasion being a banquet arranged by a committee composed of members of the Manila assembly.

The secretary was cheered for five minutes when introduced with the statement that "there is no man to whom the Philippines owe more than to the president of the United States," the native islanders being particularly demonstrative.

A silver loving cup of native make was presented to the secretary, who, in expressing his thanks, said he was gratified when he heard President Osmena say the United States had kept its every promise made to the Philippines in letter and in spirit. He urged the importance of education in order to overcome the tendency to blindly follow one man. He was confident that the assembly would unite with him to procure better conditions. He said it was important to choose the best men as delegates to the national congress. He hoped for the adoption of a tariff as low as possible and a law limiting the exports of sugar and tobacco to the United States. This would do good and would prevent the formation of another Cuba, where the absorption of energy in the production of one commodity means the control of the masses by the few and is not in the interest of the government.

Secretary Taft said he was satisfied with the condition of the Philippines and warned those who may attempt a cleavage of two peoples now coming together. In conclusion the secretary toasted the prosperity and long life of the islands.

At a meeting Monday morning of the carnival committee, leading business men and progressive citizens, Secretary Taft in a speech expressed his approval of the projected island carnival. In the afternoon he had a long talk with Aguinaldo.

## BRIDGE FALLS; ONE KILLED.

Erie Railroad Structure at Cleveland Smashed by Train Wreck.

Cleveland, O., Oct. 22.—Crumbling from the impact of a wreck, the Erie railroad bridge over the Cuyahoga river near Broadway, fell into the water Monday night, closing the river with debris and causing at least one death.

A freight train left the tracks while crossing the bridge and collided with a yard engine. Wreckage was piled high in the air when suddenly the pivotal bridge collapsed. The accident was witnessed by scores of persons who assert that others than those officially accounted for were soon to writhe in the mass of twisted steel and then plunge to death in the water beneath. The body of Daniel O. Murphy, conductor of the train which was passing over the bridge, was recovered. Small boats from the barges and other craft in the river were used to rescue a large number who were found struggling in the water.
